1) Why carve crystals in the form of a skull?

Crystals, especially quartz crystals, can receive, store and transmit energy and information – as crystal radio sets can attest to. Some believe that ancient cultures used crystal skulls as a form of computer, recording and storing ancient wisdom and knowledge to be passed down for generations. Rather than storing this information in a regular crystal that could be lost in time, they used a skull carved out of crystal to represent the receptacle of the human mind or consciousness. The skull remains long after the body, so the crystal skull was designed to last for eternity in a form that would be recognized and not discarded. The key with any computer is to know how to turn it on, and how to work with it in order to store and access information contained within it.

Noted Bio-Crystallographer, [Frank Dorland](#), spent 6 years studying and working with the extraordinary [Mitchell-Hedges Crystal Skull](#), having it famously examined at the Hewlett-Packard Laboratory. He wrote in his classic book on crystals, "Holy Ice – Bridge to the Subconscious":

"Most ancient civilizations had great respect for the skull, bordering on worship, because it is the container of the intellect, the personality, the being and the soul of a human being during his or her existence on this physical plane. The skull, or head, is the important portion, and the body is merely a mechanism attached to it to serve its needs. In spite of many movies, television shows, comic books, popular literature and medicine bottles, the skull is a symbol of death only to the uninitiated."

The famous Mitchell-Hedges Crystal Skull

2) Ancient vs. Modern Crystal Skulls - Who made them, and what is their purpose?

There is a lot of mystery surrounding the ancient crystal skulls, with questions regarding who made them, how they were made, and why. There are those who say that they have cosmic origins, or that they are connected to Atlantis and Lemuria. Crystals cannot be carbon dated, so there is no way to date the age of the crystal itself, therefore scientists use electron microscopes to determine what kinds of tools were used to carve them. If there is evidence of primitive carving tools, then the crystal skull is deemed to be ancient.

[Quartz](#) is an extremely hard crystal, which is very difficult to carve by hand, so it would have taken years, decades and even generations for the ancients to carve and polish a crystal skull – some say that the shamans would polish the crystal skulls with their hair in order to infuse their wisdom and knowledge into the skull. Some shamans used a crystal skull as a vessel to hold their consciousness at the moment of death, so they could pass their knowing on to their successors.

When examining crystal skulls, if scientists see evidence of tool marks from modern carving tools, such as a jeweler's wheel, then these crystal skulls are deemed to have been carved in the modern era, within the last two centuries. Today, there are many modern carvers who carve crystal skulls in a huge variety of stones, mostly in China and Brazil.

The [finest crystals](#) and carvings tend to come from Brazil, and we get our highest quality crystal skulls directly from the master Brazilian carvers. When it comes to crystal skulls, quality is very important – a crystal skull is a powerful spiritual tool of consciousness, so the quality of the stone and the quality of the energy make a huge difference. This is why we offer the [highest quality crystal skulls](#) available in the world.

Crystals and crystal skulls are amplifiers of thought, energy and intention. They can calm and clear the mind for more profound meditation, and for improved clarity and decision-making. With a crystal skull you can enhance intuition and psychic abilities, facilitate spiritual experiences and guidance, improve grounding and concentration, support the laws of attraction and manifestation, promote peace and calm in any environment, and generally experience whatever you set your mind to.

(PLEASE NOTE: Old and ancient crystal skulls are very rare – beware of [fakes](#). Some people talk about crystal skulls that have no tool marks at all, which are generally modern skulls that come from a mold and are not carved from natural crystal or stones.)

"SHA NA RA", "MAX", and "ET" are some of the few crystal skulls examined to be truly ancient

3) Activated crystal skulls, and what makes our crystal skulls different from others?

When crystals come out of the earth, their energy is dormant, like rocks – they need to be activated with intention and interaction in order to have their potential energy awakened. The more you work with a crystal skull, the more it becomes activated and energized.

When carvers create crystal skulls, they say that they usually carve the eyes last, because as soon as the eyes are carved, the crystal skull becomes a being with consciousness – they essentially come alive. Each and every crystal skull, from the smallest to the largest, is completely unique, and has its own personality. This is a phenomenon that does not exist with other crystal carvings, only with the crystal skulls. This is why people feel drawn to name their crystal skulls.

Crystals and crystal skulls absorb and record energies from everything that they experience. They absorb energies from the carver, and from each person who handles them. When we receive new crystal skulls, we clear their energy with sound and light activations, then we energize them on a special table that is inlaid with semi-precious stones. All of our crystal skulls are energized with the [Tibetan Crystal Skull AMAR](#), and with the [Mayan Blue Jade Skull CANA IXIM](#) – this infuses the crystal skulls with powerful healing energies. These energized crystal skulls are then kept together with AMAR and CANA IXIM in a special [Crystal Skull Sanctuary](#), which is like a perpetual crystal skull gathering where the crystal skulls all activate and energize each other on a constant basis while they await their new guardian. (We handle each and every crystal skull personally, large and small, with tender loving care, recognizing each one as a powerful energetic being of consciousness.)

When we receive an order, each crystal skull is specifically selected intuitively for you, as the crystal skull chooses its guardian – this is true even for the smallest crystal skulls. Your crystal skull is again placed on the large marble table inlaid with semi-precious stones overlooking a mystical lake. AMAR and CANA IXIM are placed in the center of this table to fully energize and optimally activate your crystal skull for you. We often perform special ceremonies and activations with the cycles of the moon, and on other special, sacred and auspicious dates. We set the highest universal intentions that each and every crystal skull will bring love, light, joy, peace, prosperity, protection, wisdom, guidance, healing, inspiration, fulfillment and wellbeing to all whom they encounter. People can feel these powerful energies emanating from our crystal skulls, sometimes right through the box that they arrive in!

*Images of The 22-pound life-size Tibetan Crystal Skull AMAR energizing crystal skulls:
(left) AMAR with crystal skulls on 5-foot ceremonial inlaid table; (right) AMAR beaming energy into a crystal skull*

4) How to connect with your crystal skull

Hold your crystal skull in your hands facing you, and welcome it as your new friend that will support and assist you in many ways. Close your eyes, breathe and relax. Feel the energy of your crystal skull in your heart, and feel that your mind and the crystal skull are one. Breathe in gently and slowly, and allow whatever comes to you, letting go of any pressure or expectations. Some people may see images, some may hear messages, some feel energy or emotions, and some people just feel a sense of peace. You can also gaze into the eyes of your crystal skull to connect with it.

Once you connect with your crystal skull, you may receive a name – be patient and trust. Crystal skulls like to have names, so they can have a friendly relationship with you as a member of your spiritual family. Trust whatever name comes to your mind, even if it seems strange, ordinary or simple. As with all relationships, your connection with your crystal skull will get stronger with time.

Some people like to sleep with crystal skulls near them to receive messages in their dreams – other people find it too intense to sleep with crystal skulls in their room. Some people like to carry crystal skulls with them at all times – we recommend that you keep them protected in a pouch, or benefit from wearing crystal skull jewelry. Some people like to create a special altar space or matrix for their crystal skulls. The key is to always listen to your own guidance and trust what feels right to you.

The power of two minds becoming one: Crystal Skulls amplify human consciousness – the bigger & clearer the better!

5) How to program and work with your crystal skull

The more you work with a crystal skull, the more activated and energized it becomes. However, you do not have to actively work with a crystal skull in order for it to actively work with you. Crystal skulls will resonate the energies of whatever stone they are carved from and will radiate this energy all around them (as long as they are not kept behind glass which stifles their energy). Children and animals, particularly cats, can perceive the energy emitted by crystal skulls, and are often irresistibly attracted to them.

There are many ways to work with crystal skulls. First, you may want to program your crystal skull with a specific intention of what you would like to experience.

Programming your crystal skull:

- 1) Hold your crystal skull in your hands facing you
- 2) Close your eyes, and get a clear sense in your mind of your intention, ideally visualizing it in as much detail as possible until you get a clear picture in your mind (if you are not a visual person, get a clear concept and choose specific words)
- 3) Feel the feelings in your heart and in your body of having that intention manifest in your life right now
- 4) Take a deep breath, and blow your breath into your crystal skull, breathing your intention and the frequency of those feelings into the crystal skull
- 5) Thank the crystal skull for helping you to manifest that reality in your life now

Meditating with your crystal skull:

During meditation, you can hold your crystal skulls in your hands, or lay them on your body, or have them in a circle around you, or on a table in front of you, etc.

RECEIVING – If your intention when you meditate is to receive guidance, wisdom, information or healing, have your crystal skull(s) facing you.

PROJECTING – If your intention when you meditate is to send healing energy to others, or to project energies out to the world, have your crystal skull(s) facing away from you.

ATTRACTING – If you want to set an intention to attract something into your life, or to manifest something you desire, have your crystal skull(s) facing away from you, sending your intention out into the world and out to the Universe.

On our website, we have more [tools and techniques](#) for working with your crystal skulls, including guided [meditations](#) for healing, and for programming and activating your crystal skulls. We also offer [special kits](#) with complete instructions for protection and manifesting with crystal skulls.

Crystal Skull Guided Meditations

Crystal Skull Protection Kit

6) What are the benefits to having a crystal skull? Which crystal skull is best for you?

Crystals are key components used in computers, watches and electronics because of their energetic properties. Just as radios can be made from crystals, Crystal Skulls are like a cosmic radio that receives, stores and transmits energy and information. Crystal skulls can help raise your consciousness and attune you to higher frequencies, and are a conduit for you to receive wisdom, guidance and awareness. They amplify and heighten intuitive abilities to gain greater insights and understanding.

Crystal Skulls can help to calm and focus the mind in order to achieve greater levels of concentration, inspiration and creativity, and deeper meditative states. They can bring peace and calm to any environment, and provide protection from negative energies. Crystal Skulls can be healing and uplifting mentally, emotionally, spiritually and physically - particularly for children, and those with special needs.

Crystal skulls can help you attract, create and manifest whatever you put your mind to, especially when working with the laws of attraction. Crystal Skulls are like a computer that can be programmed with your intentions, helping you to stay clearly focused on what you want to create, and holding the energetic frequencies to attract the vibration of what you desire, like a magnet.

Tools like the [Advisor Crystal Skull Pendulum](#) use proven centuries-old techniques for gaining clear and accurate responses to any question instantly. This powerful tool uses a system called divining or dowsing, which is an external tool for communicating with your higher guidance and intuition in a way that you can clearly see and feel immediately.

Crystal Skulls can also be used as psychic tools for the art of [scrying or crystal gazing](#). The best Crystal Skulls for scrying are clear quartz, or obsidian.

- The best all-purpose crystal skull is clear quartz, which is a master healer. Clear quartz enhances intuition and guidance, amplifies thought and intention, raises vibration and consciousness, and increases energy and vitality.
- The best crystal skulls to heighten psychic abilities and intuition are amethyst, ametrine, clear quartz, charoite, labradorite, rainbow obsidian, and lapis lazuli.
- The best crystal skulls for grounding and protection are black obsidian, hematite, jet, tiger eye, tiger iron, and silver sheen obsidian.
- The best crystal skulls for attracting prosperity and abundance are ametrine, citrine, jet, pyrite, golden obsidian, smoky quartz, tiger eye, and nummumite.
- The best crystal skulls for love are rose quartz, star rose quartz, rhodochrosite, rubellite, tourmaline, lepidolite, and garnet (for passion).
- The best crystal skulls for healing are quartz, turquoise, jade, and aventurine.

Click here to see a full [list of stones and their properties](#), along with crystal skull recommendations to assist you with specific [emotional](#) issues, [physical](#) issues, and [spiritual](#) issues.

7) How to care for your crystal skull: cleansing and energizing

Most crystals and crystal skulls can absorb energies, so it is wise to cleanse them from time to time, especially if you have let other people touch them, or if they have been exposed to negative energies, arguments, etc. There are several ways to do this:

Sea Salt - You can cleanse your crystal skulls in a bowl of sea salt, or water with sea salt overnight under a full moon (never use this method for jewelry, or for stones containing metal, such as hematite, pyrite, etc.) *Caution:* use cold water only, NEVER use hot water!

Breath - You can hold your crystal skull or crystal skull jewelry in your hands, close your eyes, and breathe, blowing your breath into your crystal skull with the intention of clearing any undesirable energies from your crystal skull. You can also program your crystal skull or crystal skull jewelry using this method by holding your intention in your mind, and breathing/blowing that intention into the skull.

Bells - You can cleanse your crystal skull or crystal skull jewelry with sound, particularly with [Tibetan bells or Tingshas](#) – this is our preferred method. Ring the bells over the skulls, asking for them to be cleared of any and all unbeneficial or undesirable energies – you can also ring the bells over the crystal skulls as you program them with your intentions to set the frequency of your intention into the crystal skull.

Will cleansing your crystal skull clear away the energies of AMAR and CANA IXIM?

No, the energies of AMAR and CANA IXIM have raised the frequency of your crystal skull, and are essentially woven into the energetic fabric of your crystal skull and crystal skull jewelry. You can only “erase” this energy if you specifically intend to do so.

Energizing and activating your crystal skull

Crystal skulls respond to light and sound, and can be energized and activated in several ways:

- A) *Moonlight* – crystal skulls love the energy of the moon; they are especially energized when bathed in the light of the full moon (however, some crystal skulls do not enjoy the light of the sun – some stones like amethyst can fade in sunlight.)
- B) *Sound* – crystal skulls can be energized and activated by sound, such as Tibetan singing bowls, Tibetan bells/Tingshas, crystal bowls, etc. (but putting the crystal skull inside the bowl when playing is not recommended as the vibration can be too strong.)
- C) *Music* – crystal skulls enjoy the sound of music, but be very selective because the crystals absorb the vibrations and energies of the music and the lyrics (Dr. Emoto did very powerful experiments demonstrating how different music affects water crystals)
- D) *Light* – placing your crystal skull on a [lightbox](#) or with candlelight can activate your crystal skull’s energies. Crystal Skulls, especially clear quartz crystal skulls, look amazing when lit from underneath by a light box; if the light changes colors, it activates different energetic frequencies within the crystal skull.
- E) *Essences* – you can use essences to activate and re-energize your crystal skulls; the AMAR [Crystal Skull Essence](#) was created from high-vibrational water from Medicine Lake in Mount Shasta and can activate the energy of AMAR in your crystal skull (and in you). The CANA IXIM Crystal Skull Essence was created with the sacred waters near an ancient Hawaiian temple, and can activate the healing energy of CANA IXIM in your crystal skull (as well as in you).

8) Why do people collect crystal skulls?

Different stones have [different energetic properties](#) and vibrate at different frequencies. Darker stones like obsidian vibrate at lower frequencies and are very good for grounding and protection. Lighter stones like amethyst vibrate at higher frequencies and help one connect with higher guidance and intuition.

All natural stones give and receive energies on different levels, and therefore support us and help us in different ways. Most stone colors correspond with different chakra colors, and support the energies of the corresponding chakra. A [Crystal Skull Chakra Set](#) contains 7 crystal skulls in different stones to balance, energize and support the energies of each of the chakras (energy centers of the body). For instance, blue sodalite supports the throat chakra and facilitates communication; amethyst supports the third eye and enhances intuition; rose quartz heals and opens the heart, promoting love and self-love.

Each crystal skull is completely unique, and each has its own energetic vibration and frequency. Different stones have different frequencies, like different notes on a keyboard, so the more crystal skulls you have, the more notes you can play with to create harmonic arrangements and powerful energetic matrixes.

One of the most powerful matrix energies you can work with is a circle of twelve crystal skulls. This creates an amazing vortex of energy that amplifies and energizes whatever is in the center of the circle. You can sit in the center of the [12 crystal skulls](#) to deepen meditative states, increase your energy and vitality, and enhance healing on all levels. Place an intention (a photo, word, affirmation, vision board, etc.) in the center of the circle of 12 crystal skulls to magnify the powers of manifestation and laws of attraction.

When you place a circle of 12 quartz crystal skulls around any stone, you amplify the power of the stone in the center exponentially. A circle of 12 quartz crystal skulls can also cleanse, energize and activate any crystal skull placed in the center. Quartz crystal is a master stone – it energizes and enhances the properties of any other stone that is near it.

Some people are perfectly happy with one crystal skull, but crystal skulls are beings with consciousness that tend to want to attract companions to increase their power. When it comes to crystal skulls, two heads can definitely be better than one, and most crystal skull guardians will say: the more the merrier!

The power of a circular matrix of 12 crystal skulls with a 13th crystal skull in the center

9) What are the benefits of wearing crystal skull jewelry?

Wearing crystal skull jewelry lets you benefit from the power of crystal skulls by having them close to you at all times. Crystal skulls amplify the energetic properties of stones. Wearing crystal skulls can help raise your consciousness, increase your energy, raise your frequency and vibration, support you to experience greater peace, joy, calm and wellbeing, and attract prosperity on all levels. Wearing crystal skulls can also be very grounding and protective, and can increase your intuitive abilities.

Certain stones, like Lapis Lazuli, Aquamarine or Blue Lace Agate are excellent when worn as a pendant because they support the throat and facilitate clear self-expression. They also promote intuition, knowing, peace and calm.

Wearing rose quartz near the heart helps to heal, open and protect the heart, while promoting self-love and self-acceptance, and also attracting and supporting love in all forms.

Wearing clear quartz amplifies your will and intention, increases your awareness and perception, promotes creativity and inspiration, and is an all-purpose healing stone.

Wearing garnet supports the blood and cardiovascular system, while also increasing passion and vitality. It can help to calm anxiety, and promotes self-confidence.

Wearing amethyst increases intuitive abilities and offers spiritual protection. It is also a powerful detoxifier, and can be helpful with issues of addiction.

Wearing ametrine promotes higher psychic awareness and spiritual enlightenment. It can help with alleviating depression, enhancing inner peace, and easing change and transition. It is highly protective and transmutes negative energies, bringing joy and abundance.

Wearing carnelian promotes self-esteem and creativity, improves memory and focus, assists with problem-solving, and helps attain goals and success.

Wearing tiger eye increases courage and confidence, enhances willpower and patience, and can bring luck.

We have the largest selection of crystal skull jewelry in the world, including [crystal skull pendants](#) in many different stones. We also have an extensive variety of [crystal skull jewelry](#) designed exclusively for us in silver and in leather. Experience how wearing crystal skulls can empower you, benefit you and support you at all times.

10) How can crystal skulls help and heal the Earth?

Crystal skulls are emerging at this time to help raise the consciousness of humanity. They are spreading around the world to assist and support the Earth itself as this planet is undergoing its own evolution and transformation. Crystal skulls can help raise the energetic vibration and frequency around them, and can raise the vibration of the Earth.

The Earth is crystalline in nature, as is the human body. Quartz is one of the most abundant minerals on Earth, making up 12% of the Earth's crust. Crystals conduct electromagnetic energy, and this energy can energize and restore balance to the human body as well as to the planet itself. Your mind and your conscious intent can activate the crystal skulls and direct their energy with precision for healing and manifesting your will and intention, for yourself and for the Earth.

Crystal skulls serve several purposes around the world. They anchor a higher vibration to allow a new level of consciousness to raise the vibration of humanity. Crystal skulls are connected to each other and form a crystalline grid much like a cosmic Internet – they communicate with each other "wirelessly" and share energy and information. Crystals are like computers that store information, and are also receivers and transmitters of energy and information.

The crystal skull grid not only connects crystal skulls to one another, it also creates an energy field that surrounds the planet and helps to keep the Earth's energy intact as it undergoes massive change and evolution. Crystal skulls are assisting the planet to raise its vibration and to become more light, thanks to crystal skull guardians around the globe.

Crystal skulls can also serve to relieve pressure in the Earth, much like an acupuncture needle, removing energy blockages and allowing the flow of balance and wellbeing to be restored. Crystal skulls can bring peace to all people, places and things that surround them. This is why people all over the world are guided to work with as many [crystal skulls](#) as possible, and to share them with others.

Crystal Skulls holding the light around the World in [special activations](#)

How are crystal skulls energized by AMAR, CANA IXIM, ET and SHA NA RA?

Each crystal skull has its own unique energy signature and vibration. Old and ancient crystal skulls contain powerful energies of healing, wisdom and higher frequencies that can be imprinted or "downloaded" into newer crystal skulls because crystal skulls absorb, share and transfer energy and information. Those who are highly sensitive can actually see and/or feel this energy transmission that occurs between the crystal skulls.

All of the crystal skulls from CrystalSkulls.com are energized with the Tibetan Crystal Skull AMAR, and the Mayan Blue Jade Crystal Skull, CANA IXIM, unless they specifically state otherwise. Each crystal skull, from the smallest to the largest, is directly energized with AMAR and CANA IXIM at least twice: once when we first receive it, and then it is energized specially for you when you place your order. While crystal skulls await their new guardians, they commune with the energies of AMAR and CANA IXIM constantly in a crystal skull sanctuary, and are energized in special activation ceremonies.

AMAR (pronounced AH MAR) means "to love". This 22-pound life-size Himalayan Quartz Crystal Skull came from a monastery in Tibet where Tibetan monks worked with it for centuries for healing and divination (around 2005, AMAR was rescued from the Chinese regime in Tibet by a High Lama after over 6,000 monasteries have been tragically destroyed in Tibet, and sacred artifacts confiscated or desecrated). AMAR holds energies of healing, love, and compassion, and infuses this powerful energy into crystal skulls.

CANA IXIM (pronounced KA-NA EESHEEM) means "Lady of the Corn". To the Mayans, corn is life, and blue jade was more valued than gold. This Mayan Blue Jade Skull has rare Mayan glyphs carved in relief on the crown and third eye; it was used in ceremonies for abundance and fertility for the crops and for the people. CANA IXIM is powerfully healing, and profoundly affects women in particular.

Through an exclusive arrangement with the guardians of the Ancient Crystal Skulls ET and SHA NA RA, CrystalSkulls.com also offers a select group of crystal skulls that have been specially energized with the [Ancient Crystal Skull SHA NA RA](#), or with the [Ancient ET Crystal Skull Collection](#):

SHA NA RA is one of the few crystal skulls in the world that has been scientifically examined and proven to be truly ancient. It has the unusual distinction of having been discovered in an actual archeological dig in Mexico - thereby providing further credibility to its status as a truly ancient crystal skull. The guardian of SHA NA RA, Michele Nocerino, specially energized a select group of crystal skulls for us in a candlelit activation ceremony over many hours, during which each crystal skull directly touched SHA NA RA to receive its energies.

ANCIENT CRYSTAL SKULL "ET" is part of the famous crystal skull collection of Joky Van Dieten, along with 9 other significant large crystal skulls carved from different minerals. The "youngest" crystal skull in this collection was carved in 1926, which still makes it one of the oldest known crystal skulls in the world today. The remarkable crystal skulls in this collection have been exhibited in a museum in Europe, and in special exhibits in several countries. ET is one of a handful of crystal skulls in the world that has long been acknowledged as being truly ancient. It was found by a Mayan Family in 1906 while they were digging in their backyard in Guatemala. Mayan priests recognized ET as the lost Mayan skull that came from the Pleiades, and confirmed that Joky Van Dieten was its rightful guardian. A select group of crystal skulls was energized with the Ancient ET Crystal Skull Collection in a powerful activation ceremony, which took place overnight in a full size three-story-high pyramid under a rare blue moon.

The energies of AMAR and CANA IXIM (as well as the energies of SHA NA RA or ET) raise the frequencies of the crystal skulls that they energize; their energies are essentially woven into the energetic fabric of these energized crystal skulls. You can only "erase" these energies if you specifically intend to do so.

Testimonials

"I know the crystal skulls have come into my life to assist me on my own spiritual path as well as in helping others in my healing work. I work as a Reiki Master, Angel Intuitive and Shamanic Practitioner and have found many, many benefits in using my skulls in earth healing attunements, healing of clients in body, mind and spirit and connecting to the world of Spirit. They are wonderful teachers and healers and I feel truly blessed to be given these tools to work with and share with others in my life."

"Although i have skulls from other sites your skulls have the most vibration. They give me goose bumps and fill me with love."

"We have all discovered that each skull that arrives for each of us is indicative of our personalities. it is quite interesting to see. am ordering another soon. thanks again."

"As always your company is the best and only choice for me to purchase my skulls as you seem to have left no stone unturned (pun intended) in the care and handling of these darling skulls."

"Yes, I received my amazing crystal skull last week and I love it! I wear all the time and feel that it has surrounded me with good auras and positive energy's. I am very happy that I got this skull."

"When I recieved my "Little Helper" crystal skull it jumpstarted my road back to health. Ever since then, I keep my miniature crystal skull with me as much as possible and life for me is improving daily. Thank you,"

"I recently purchased a crystal skull from u guys and it changed my life around....I received it last nov. and I felt the bubble surrounding me, im a true believer"
